

The TimTech Chemicals Generations Guarantee™

TimTech Chemicals is a wholly Australasian owned company committed to bringing Values and Value back into timber protection.

As Values always involve people we have introduced The **Generations Guarantee™** to personalise our warranty.

Our **Generations Guarantee™** is an additional assurance for all users of wood products treated with TimTech Chemicals wood preservatives. The **Generations Guarantee™** is in addition to any implied or statutory warranties and does not limit the user's legal or statutory rights.

TimTech LOSP Guarantee:

Wood products treated with TimTech LOSP (Light Organic Solvent Preservative) shall be guaranteed against fungal decay and insect attack for 25 years when prepared, treated, branded and used in accordance with the Queensland Timber Utilisation and Marketing Act, New South Wales Timber Marketing Act or Standards NZS3640 and AS1604 or in accordance with the regulations applicable in the country where treated products are intended to be used, whichever is the more stringent.

The guarantee applies from the date of treatment and assures the replacement of wood products made unserviceable due to fungal decay or insect attack.

The guarantee excludes removal costs of any damaged wood, reinstallation costs, consequential losses or damages.

The **Generations Guarantee™** does not cover wood products used in marine applications or for applications at higher hazard levels than the wood was treated and branded.

TimTech CCA and Copper Quaternary Guarantee:

Wood products treated with TimTech CX CCA and Timtech Q shall be guaranteed against fungal decay and insect attack for 50 years when prepared, treated, branded and used in accordance with the Queensland Timber Utilisation and Marketing Act, New South Wales Timber Marketing Act or Standards NZS3640 and AS1604.

The guarantee applies from the date of treatment and is limited to the replacement of wood products made unserviceable due to fungal decay or insect attack.

The guarantee excludes removal costs of any damaged wood, reinstallation costs, consequential losses or damages.

The **Generations Guarantee™** does not cover wood products used in marine applications or for applications at higher hazard levels than the wood was treated and branded.

TimTech H1.2 Boron Guarantee:

Wood products treated with TimTech® BG or TimTech® BG-Dry wood preservatives shall be guaranteed to withstand insect attack and fungal decay and remain structurally fit for purpose when prepared, treated, branded and installed in H1.2 situations in accordance with NZS3640.

The H1.2 treated timber is guaranteed for 15 years when installed in a ventilated cavity construction or for 5 years when installed without a cavity.

The guarantee applies from the date of treatment and assures the replacement of timber no longer structurally fit for purpose due to insect attack or fungal decay. The guarantee is not valid for timber installed in "leaky buildings".

The guarantee excludes removal costs of structurally unfit timber, reinstallation costs, consequential losses or damages.
